Bespoke

We are all creative - whether that be physically creative making art or practically creative building office cabins or veg beds, we all have ideas and we all want to bring them to life.

We understand that having an idea but not the means to do something can be frustrating.

So we offer a unique bespoke service where we can take a high quality photo of somewhere special, or create a video, put together some content - or even help you test fly your latest drone creation - whatever the idea is, we can help make it a reality, for the fraction of the cost of paying a full production service.

What we do:

- Quality photography
- 4K (up to 6K) videos
- FPV content
- Coverage
- Editing with soundtracks
- Pilot and crew hire

Some of the equipment we use

DJI Mavic 2 Pro

Go Pro Hero 10

FPV's

Sony A7 IV and filming accessories

Prices:

Below is a standard example of our prices. To see about additional extras such as deals for multiple use, then please contact us and we will discuss further options with you.
